# Key Highlights of the Month

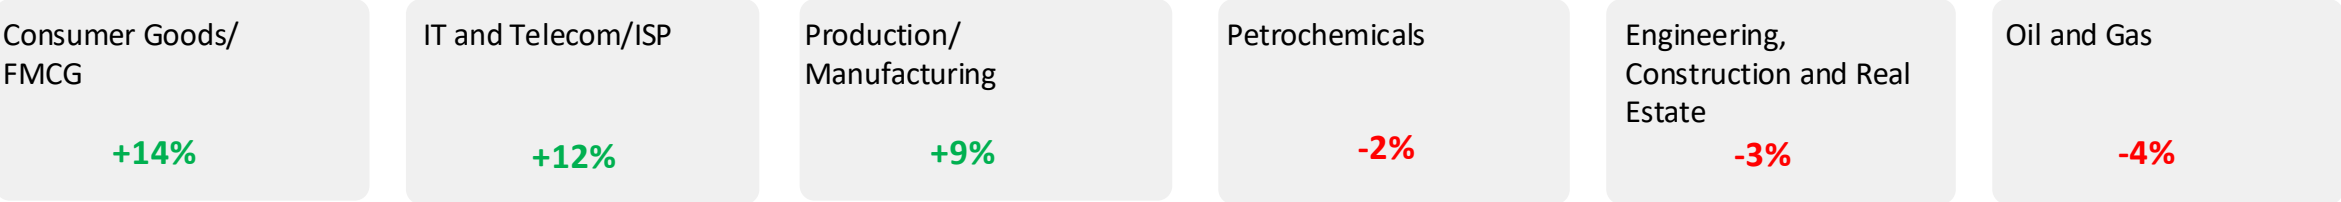

foundit Insights Tracker reports increased hiring activity in the Middle East, recording 40% annual growth in November 2025

- ✓ According to the latest data from the foundit Insights Tracker (fit), the index moved significantly from 139 in November 2024 to 195 in November 2025, reflecting rising hiring activity.
- ✓ The month-over-month analysis from the tracker shows a 14% increase, with the index rising from 171 in October 2025 to 195 in November 2025.
- ✓ Hiring in the Middle East increased by 25% over the past 3–6 months, driven primarily by non-oil economic expansion and sustained demand for digital and transformation roles. Majority of the companies are planning to expand headcount, supported by government-led diversification programs (Vision 2030, UAE economic agenda), large infrastructure and giga-projects, and continued hiring in technology, logistics, construction, and professional services.

## INDUSTRY

## FUNCTIONAL AREA

## ACROSS REGIONS

# Hiring Trends – Industry\*

8 out of 12 industries monitored by the tracker registered an annual increase in hiring activity in November’25.

- ✓ **IT & Telecom/ISP (+47%), Manufacturing & Automotive (+36%), and Hospitality (+15%)** led hiring, driven by accelerated digital transformation across GCC economies (cloud, AI, cybersecurity), industrial localisation and EV supply-chain investments under Vision 2030, and tourism recovery supported by mega-events and new hotel projects in the UAE and Saudi Arabia.
- ✓ **Oil & Gas (-18%), FMCG (-15%), and Healthcare (-4%)** saw hiring declines as energy firms prioritised automation and energy transition, consumer companies faced margin pressure and slower demand. Although healthcare saw an annual dip in hiring, the sector is undergoing a transformation driven by technology adoption and fresh investments, resulting in renewed hiring momentum over the past three months.
- ✓ **Education (+14%) and Engineering, Construction & Real Estate (+12%)** continued to drive demand, supported by population growth and ongoing infrastructure projects and long-term diversification agendas, while **Retail/Logistics (+3%)** showed modest recovery. **BFSI (0%)** and **Advertising/Media (0%)** remained muted amid cautious consumption. **Petrochemicals (-2%)** registered a slight dip due to cyclical demand and capital optimisation.

# Hiring Trends - Functional Area\*

Online recruitment activity surpassed the year-ago level in 10 of the 11 occupation groups monitored by the tracker

- ✓ **HR & Admin (+24%), Hospitality & Travel (+18%), and Customer Service (+14%)** saw the strongest hiring growth, driven by workforce expansion, localisation and compliance requirements, tourism recovery, and the scaling of customer-facing and digital support operations across the GCC.
- ✓ **Finance & Accounts (-9%), Legal (0%), and Health Care (+3%)** showed weak momentum. Hiring in Finance declined due to automation, shared services, and cost optimisation while hiring in legal remained flat as firms relied on lean teams and external counsel. Healthcare roles recorded a modest uptick owing to expanding healthcare network.
- ✓ **Sales & Business Development (+12%) and Engineering & Production (+10%)** were supported by commercial expansion and infrastructure activity, while **Software/Hardware/Telecom (+6%)** reflected selective demand for specialised digital skills. **Marketing & Communications (+5%)** and **Purchase/Logistics/Supply Chain (+5%)** saw a modest hiring growth as companies balanced growth investments with cautious spending.

# Hiring Trends – Kingdom of Saudi Arabia \*

foundit Insights Tracker in KSA was stagnant with a 0% growth in November’25 annually

foundit Insights Tracker

Industry Trend

- Production/Manufacturing
- IT and Telecom/ISP
- Hospitality
- Engineering, Construction
- Oil and Gas

Functional Area Trend

- Purchase/Logistics/Supply Chain
- Hospitality and Travel
- Marketing & Communications
- HR & Admin.
- Software, Hardware, Telecom
- Finance and Account

- ✓ The Index in KSA saw a marginal decline from 201 in November 2025 from 202 in November 2024.
- ✓ In Saudi Arabia, **Production/Manufacturing (+95%)** led hiring due to Vision 2030–driven industrial localisation and non-oil manufacturing expansion, while **Education (-58%)** declined sharply amid slower institutional expansion and budget rationalisation.
- ✓ Among functions, **Purchase/Logistics/Supply Chain (+16%)** led hiring driven by higher trade volumes, warehouse expansion, and supply-chain digitisation, while **Finance & Accounts (-30%)** declined as organisations consolidated finance functions and increased automation.

# Hiring Trends – United Arab Emirates\*

foundit Insights Tracker in UAE noticed a 33% surge annually in online recruitment activity in November’25.

- ✓ The Index in UAE jumped to 67 in November’25 from 50 in November’24.
- ✓ In the UAE, **Engineering, Construction & Real Estate (+44%)** led hiring due to strong infrastructure and property development, while **BFSI (-27%)** declined amid cost pressures and cautious financial-sector expansion.
- ✓ In the UAE, **HR & Admin (+28%)** led hiring driven by workforce expansion, HR transformation initiatives, and automation of administrative processes, while **Finance & Accounts (-20%)** declined as companies streamlined financial operations, adopted automation, and exercised caution on adding new headcount.

# Data & Methodology

The foundit Insights Tracker (fit) is a comprehensive monthly analysis of online job posting activity conducted by foundit.in. Based on a real-time review of millions of employer job opportunities culled from a large, representative selection of online career outlets, fit presents a snapshot of employer online recruitment activity nationwide. In its earlier form (as Monster Employment Index), it gave a broader view of hiring trends by industry, function, location and experience levels. In its new avatar, it provides next-level insights on recruitment trends and tracks developments in demand for key skills, roles available and salary range on offer in the market.

In order to avoid excessive monthly fluctuations, the index is calculated using a volatility-adjusting formula. We publish the data in a volume index format with the base value of 100. The index describes changes in the level of online job demand against the baseline. An increase in the index indicates growth in online job availability and suggests an increase in the demand for employees by employers.

Foundit Insights Tracker (formerly Monster Employment Index ) was first launched in India in May 2010 with data collected since February 2009 followed by Gulf in April 2011 with data collected since February 2010; Singapore in May 2014 with data collected since January 2011; Philippines and Malaysia in May 2015 with data collected since February 2014.

foundit has taken due care in compiling and processing the data available from various sources for foundit Insights Tracker (fit), but does not guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or action / decision taken or for the result obtained from the use of such information.

# About foundit.in APAC & Middle East

foundit.in, formerly Monster, is a leading talent platform offering comprehensive employment solutions to recruiters and job seekers across India, SEA, and Gulf. Since its inception, the company has been assisting over 90 million registered users to find jobs, upskill, and connect with the right opportunities across 18 countries. Over the last two decades, the company has been a catalyst in the world of recruitment solutions with advanced technology, seeking to efficiently bridge the talent gap across industry verticals, experience levels, and geographies. Today, foundit.in is committed to enabling and connecting the right talent with the right opportunities by harnessing the power of deep-tech to sharpen hyper-personalised job searches, and precision hiring. foundit.in strongly believes that a job title doesn't define one's potential and leverages technology to dig deeper to curate opportunities central to the needs, aspirations, and dreams of each user.
